Serving the needs of children with autism and related communication disorders in Warwickshire & the West Midlands

2nd July 2018

Dear Parents and Carers

Urgent Remedial Work to College Site

As you are aware, Ofsted visited before half term and we are expecting their report to be issued shortly. As soon as we receive this, copies will of course be sent to you.

Unfortunately, the inspection revealed a number of structural issues at both sites which require immediate attention.

The undertaking of the work cannot wait until the summer break, and we are therefore having to close parts of the School and College down over the next few weeks to ensure that the remedial work is done

We will obviously need to keep disruption to the college day to a minimum, but as some of the remedial work requires water to be isolated, on those days, we cannot have pupils in the relevant Unit. We are therefore getting the work done on a Unit by Unit basis, although it may also be necessary to close the whole site down for a day - something we will avoid if at all possible.

In any event, I will attempt to provide as much notice as possible to allow you to make alternative arrangements, and will ensure, that wherever possible, you have at least one week's notice.

Separate letters will follow to parents of affected pupils.

Kind regards

Sarah Gallagher
School Principal
