Serving the needs of children with autism and related communication disorders in Warwickshire & the West Midlands

26th July 2018

Dear Parents

College House

As you know from previous letters, as a result of the Ofsted inspection, it has been necessary to carry out remedial work at both School and College.

One of the outstanding jobs involves the fitting of thermostatic mixing taps in the bathrooms at the College House. This needs to be done as a matter of priority. Our contractors (who specialise in working within school environments) are extremely busy over the summer period, and unfortunately, the only day they are able to do this work for us is on Tuesday 7th August 2018.

I appreciate that this is extremely close to the end of the summer term, but unfortunately, we are left with no option other than to close College House for the day.

Can you please note that the House should be open on Wednesday 8th August until the end of term on 10th August.

Kind regards

Yours sincerely

Sarah Gallagher
