Serving the needs of children with autism and related communication disorders in Warwickshire & the West Midlands

2 July 2018

Dear Parents

Urgent Remedial Work to College Site

Further to my earlier letter, I am just writing to let you know that work in the College House will start on Tuesday 17th July 2018.

Thermostatic Valves have to be fitted to water supplies which means that there will be no running water in the College. Therefore your child cannot attend College on that day, and you will need to make alternative arrangements

It may be necessary to close for a second day to complete work in at the Siter, and as soon as I know anything further, I will let you know.

Kind regards

Yours sincerely

Sarah Gallagher
School Principal
